Aqua Illinois History

- ◆ Aqua Illinois dates back to 1886 when the City of Kankakee authorized the formation of a public water supply corporation, then known as Kankakee Water Company.
- ◆ Kankakee Water Company constructed one of the first water filtration plants in the Midwest, and eventually expanded to other communities in central and northern Illinois.
- ◆ The company merged with Aqua America (then called Philadelphia Suburban Corporation) in 1999.
- ◆ Since 1999, Aqua America has completed more than 25 acquisitions in the state.
- ◆ Aqua's Northern Customer Service Call Center is located at the Kankakee offices.
